# Accomplishments to Date

Accomplishments to Date

- Wisconsin was a leader in early 1980s with Community Options Program

- Statewide use of Medicaid waivers - COP, CIP

- Down-sizing state Centers for Developmentally Disabled

- More recent reforms: Family Care pilots, Partnership

- 2003-05 budget: ICF-MR funding restructured - money follows the person

The Balance Between Care Provided at Institutions and in the Community is Shifting

Trends in Nursing Home and Community Care Use
2004 is preliminary data, 2005-2007 data are projections

Purchasing for Quality and Value

- Medicaid waiver programs show cost-effectiveness when compared with institutional care for a similar population.

- Family Care and Partnership are more cost-effective than waivers because card services are also brought under management.

- Consumer satisfaction with services and care management is high in waivers.

- Family Care sites score high in 14 consumer outcome indicators.

Aging and Disability Resource Centers (ADRC)

- One stop shopping

- Provide access 24/7

- Public can get:

  - Information regarding long-term care services

  - Impartial counseling on long-term care options

  - Prevention information and activities

  - Assistance and advice from benefit specialists

Aging and Disability Resource Centers

Table 5

Outcomes of Information and Assistance Contacts
October 2004 through December 2004

Outcomes of Contacts	Number	Percentage
Information about Other Services or Resources	7,105	36.9%
Information about Long-Term Care Services	3,407	17.7%
Referral to Services or Resources Other than Emergency, APS, LTC	3,391	17.6%
Referral for Long-Term Care Functional Screen	2,980	15.5%
Referral to Publicly Funded Services*	805	4.2%
Needs follow-up contact from RC	507	2.6%
Needs Brief or Short-Term Services or Service Coordination	496	2.6%
Referral to Adult Protective Services (APS)	391	2.0%
Referral to Private LTC Services	99	0.5%
Referral to Emergency Services	53	0.3%
Total:	**19,234**	**100.0%**

* For programs such as Medicare, Medicaid, Food Stamps, Social Security

Prevention Efforts in ADRCs

- Kenosha County developed a chronic disease self-management program.

- Portage County assesses individuals for risk of falls.

- Trempealeau County conducts bone density scanning and follow up.

- Marathon County provides persons on the waiver wait list with in-home assessments by a clinical nurse to evaluate medication use, nutrition and other health and safety factors.

467 Nursing Home Relocations in 2003-04

	2003	**2004**
Seniors	185	148
Persons with Disabilities	81	62
Total	266	210

DHFS

ICF-MR Restructuring

- 2003-05 budget authorized funding to follow the recipient from institutions for people with developmental disabilities to the community.

- 1,500 people in 32 institutions will have a community care plan developed.

- Currently, 5 facilities are closing and 225 residents will be relocated to the community.
